

Dr. H.K. Tong
Chairman of Education Committee
All Fellows and Trainees

07/06/2002

Dear Fellows and Trainees,

CME requirement for renewal of practicing certificates

The Medical Council requires that from Oct. 2004 onward, **all doctors** need to satisfy some CME requirements before they can renew their practicing certificates. Academy is appointed as one of the Program Administrator.

In order to facilitate our fellows and trainees to obtain the required CME points, Education Committee will scrutinize the various training program of the College and various A&E training centres in order to recommend to the Academy the types of training that can be approved as CME for trainees and fellows for this purpose.

Please note that you need to register with one Program Administrator (e.g., Academy) when this law becomes effective in Oct., 2004.

Thank you for your attention.

Yours sincerely,

(Sgd)
Dr. H. K .Tong
